Frank Sayre and Laura Mallery-Sayre created the Daniel R. Sayre Memorial Foundation over 13 years ago. In 1997 their 25 year old son, Daniel, died in a Hiking accident at Kapaloa Falls in Pololu Valley. The Hawaii Fire Department did not have the specialized rescue equipment including ropes long enough to rappel down the 500 feet to where their son's body was. The Hawaii Fire Department rescue personnel took their helicopter down into the Polulu Valley at great personal risk to themselves to reach Daniels body. It took 10 hours before these heroic rescue personnel were able to retrieve Daniel's body. Laura and Frank decided to turn their grief into a force for positive change.
